TENET

TC TENET | ALT ART ROCK

TC TENET is an Alternative Art Rock artist who writes, produces, and records his own music. Following a series of four standalone singles, he released his debut EP, Breakaway, in late 2024, receiving support from publications including Vents Magazine, Backseat Mafia, Mystic Sons, and Return of Rock.

Driven by distorted guitars, atmospheric synths, and emotionally charged songwriting, TC TENET's music moves between explosive alt-rock and introspective melodic landscapes.

In late 2026, TC TENET joined forces with longtime friend and musical collaborator Panis to release 909, a five-track alternative rock EP recorded between London and São Paulo.

At its heart, TC TENET's music is about finding light in the darkness, embracing uncertainty, and holding on to the things that make us human.

There is a sun in everyone.
